

SULFURTRAP™ DF

Dual Functional Carbonyl Sulfide (COS) and Hydrogen Sulfide (H₂S) Hydrolysis/Absorption Catalyst

Manufacturer

Chemical Products Industries, Inc.
7649 SW 34th St., Oklahoma City, Ok 73179
(800) 624-4356 (405) 745-2070

Product Benefits

- ❖ Efficient removal of low levels of COS and H₂S by hydrolysis and absorption
- ❖ Operates over a wide temperature and pressure range
- ❖ High particle strength
- ❖ Environmentally safe and stable

Product Uses

- ❖ Removal of COS and H₂S by hydrolysis and absorption from a variety of liquid and gaseous streams over a wide temperature range (ambient upward).

General Description

- ❖ SULFURTRAP™ DF is a porous spherical catalyst

Physical Properties

- ❖ Form: Spherical particles
- ❖ Size: 4x16 mesh
- ❖ Bulk Density: 65 lbs./ft.³

Shipping & Handling

- ❖ SULFURTRAP™ DF is available in 2,000 lb. lined bulk bags (totes) for easy loading.
- ❖ Avoid breathing dust. Refer to Material Safety Data Sheet for further information.
